SKILLS

Technical Skills: Responsive Web Design, Express.js, RESTful APIs, Html, Node.js, Express, MongoDb, CSS, Redux, React, JavaScript
Soft Skills: Time Management, Adaptability, Teamwork, Problem Solving

PROJECTS

Online Voting System | *React, Material-UI, Firebase, React Router*

- 🚀 Deployed Link : https://onlinevotingsys.netlify.app/
- Github Repo : https://github.com/anisha314/OnlineVotingSystem
- Contributed to the development of secure user registration and authentication modules to ensure only eligible voters can access the platform.
- Assisted in designing voter profile creation features to maintain accurate user records and support personalized access.
- Supported the implementation of a transparent and confidential vote casting process, enhancing trust in remote voting.

Chat-Go | *MongoDB, Express, React, Node.js, Socket.IO, Tailwind CSS with DaisyUI*

- 🚀 Deployed Link : https://chatgo-uhcl.onrender.com
- Github Repo : https://github.com/Kuldeep1246/ChatGo
- Implemented secure JWT-based authentication and managed user sessions for safe access to chat features.
- Enabled image uploads through Cloudinary and maintained a responsive UI with Tailwind CSS and DaisyUI.
- Handled global state management with Zustand and ensured comprehensive error handling on both frontend and backend.
- Deployed the application on Render, focusing on scalability and modern design.

Booking.Pro - Travel & Booking Platform | *Frontend: HTML, CSS, JavaScript, Database: Firebase Realtime Database*

- 🚀 Deployed Link : https://bookingpro.netlify.app/
- Github Repo : https://github.com/jasminekeshari/Booking.Pro
- Contributed to developing a platform enabling users to explore destinations and book hotels, flights, and car rentals.
- Implemented user authentication and registration features using Firebase Realtime Database.
- Designed and maintained a fully responsive and user-friendly interface with HTML, CSS, and JavaScript.
